非侵入式脑机接口全民普及应用领航者
Pioneer of Universal Popularization for Non-invasive BCI Technology

EyeBeili 眼倍丽

COMPANY PROFILE 公司简介

Independently developed by a national high-tech enterprise with six exclusive patents, the SHEERWISE Smart Vision-Brain Instrument ("Sheerlight Clarity • Brainwave Balance") applies lightweight, non-invasive BCI technology. Built on neuroscience, life science and natural rhythms, its open external smart headset integrates dual patented audio algorithms — combining visual comfort care & sight regulation, neuroscience-based relaxation & sleep support, mental resilience training & mood balancing, and left & right brain potential activation — serving students as the core users, along with working adults and seniors.

全智星·智慧视脑仪由国家高新技术企业自主研发，拥有六大独家专利，深耕轻量化非侵入式无创脑机接口（BCI）技术。产品以“星光明视、脑波归元”为理念，基于脑科学、生命学与自然节律三大底层原理，采用外置开放式智能头环结构，内置两大独家专利专属音频，将视力养护防控、脑科学解压助眠、心力训练与情绪调节、左右脑潜能开发多效合一，核心服务青少年学生群体，并覆盖都市职场人群与中老年康养人群。

COMPANY PROFILE 公司简介

Founded in June 2024 at China Eye Valley, Annuofan's research team comprises leading neurobiology, ophthalmology and sleep experts including national "Thousand Talents" and Outstanding Youth scientists. Backed by key/original-exploration NSFC grants and major MOST R&D projects, it developed the world's first light-frequency bio-modulation sleep device targeting the light-electrical (γ oscillation)-chemical (adenosine) coupling and the eye-brain pathway — fast, stable sleep support that also promotes brain metabolic clearance, non-invasively and without drug dependence.

温州安诺帆科技有限公司成立于2024年6月，位于中国眼谷，科研团队由国家“千人计划”、国家杰青等神经生物学、眼科学与睡眠领域知名专家组成。公司获国家自然科学基金重点/原始探索项目及科技部重大研发项目资助，研发出世界首款靶向光频-电(γ 振荡)-化学(腺苷)偶联和眼-脑通路的光频生物调控睡眠仪，助眠起效快、效果稳，同步促进睡眠与脑代谢清理，无创、无药物依赖。
